
SKILL SET ANALYSIS

USE YOUR SKILLS TO PAY YOUR BILLS

ATHOMEMOMS
.com

Welcome Beautiful,

First of all, congratulations and BRAVO to you for beginning this process! You are an extraordinary mom, who wants to work from home. Chances are, you have reasons for why you want to live this dream. No matter what your goals are for your work at home income, myself and my incredible team will provide you with all of the resources and support you need for success. So let's get started!

Selecting the right Work at Home opportunity for you will be based on your:

- Time availability.
- The skills and experience you already have.
- Your willingness to develop new habits and possibly a new schedule.
- Your ability to learn new concepts and skills - to grow both personally & professionally.

You must also have a clear understanding of your income needs and future goals. There are many reasons you want to work at home, and chances are these reasons are directly related to what income you want to create.

Through this Skill Set Analysis, you will define the skills you already have so that you are on the fastest path to making money. The good news is, that you are in good hands. I can help you grow your income to 5 or even 6-figures within the next 12 months should you decide to join my Mompreneurs Academy!

Wait... whoa?! Yes, you read this correctly. I've done this, and helped other moms do this, and you can too!

Without getting too far ahead, we need to start you off with this analysis. Be as objective as possible and honest with yourself. I know you are eager to find the right fit for your new work at home career. This will be the first step in this process.

Thank you for partnering with me and the At Home Moms Community!

Cheers to you and your success,

Owner, President - AtHomeMoms.com

Job Experience Table: List each job you have ever had and how long you have experience doing that particular job.

List anything anyone has ever paid you money for! This can be for a product or service. Do not leave out things like: child care, make-up application, selling something, coaching or tutoring, organizing, etc. This will help you start to identify what you are experienced in.

Job Name and a Brief Job Description of your Responsibilities	How Long (years)

What job or industry do you have the most time experience in?

List below the primary tasks of this job(s) and place a check mark next to the tasks that you consider yourself to be an expert in. Tasks can be physical tasks such as doing, computing, or making something, or they can be non-tangible such as leadership or team building skills.

Blank area for listing primary tasks of the job(s) with a light gray background.

List below the tasks you currently do at a job or place of employment, or have done in the past which were not a primary task to your job, but those you selected or were appointed to take on because of your abilities, willingness, or passion to do them:

List below the tasks you currently do at home and/or find yourself doing in your spare time:

List below things that others often ask you for help with:

List below things that come easily to you, or skills and abilities you may take for granted:

Classification of Skills: Read through each of the following and circle what you are strongly skilled in or have great experience with from each column.

People	Data	Things
advertising	accounting	physical agility or speed
briefing	analyzing	assembling
communicating	balancing	calibrating
consulting	budgeting	constructing
coaching	collecting	cooking
facilitating	comparing	crafting
following through	compiling	cutting
giving feedback	computing	driving
guiding discussions	creating	growing things
influencing	designing	hand & eye coordination
initiating	estimating	handling & packaging
instructing	evaluating	inspecting
interviewing	forecasting	maintaining
managing	idea generating	maneuvering
mentoring	imagining	manufacturing
motivating	interviewing	molding
negotiating	organizing	motor skills
persuading	planning	operating
public speaking	problem solving	painting
selling	researching	preparing
sponsoring	retrieving information	repairing
supervising	surveying	setting up
teaching	sorting	sewing
training	systemizing	uses hands

Total number circled from each column:

People _____

Data _____

Things _____

What is your strongest area of skills? (circle one)

People

Data

Things

Look for patterns of strength, experience, competence, and genuine interest in each of the earlier exercises. List what patterns you are seeing of your skills, interests, and abilities:

Four horizontal grey bars for writing.

**** Special Note to You ****

Your fastest path to making money at home may not be what you are wanting in your heart to do today. If you are finding this to be a disconnect, think about it this way...

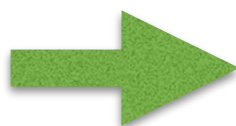

Example: You may be bored of your accounting job, or wondering how this could turn into a home based career. But you must agree that even if your heart is dreaming about starting a “custom cookie business from home” and you have more experience doing accounting work, your fastest way to making money is using your accounting skills, experience, and network of contacts.

Consider ways to leverage your skills and experience as an accountant to make money first, learn the ropes of being your own boss, and then work towards starting that bakery business you are dreaming about today.

When you are making more money from home, you will then have the resources (\$\$) to be able to do what your are dreaming of doing today, and the experience of running a business to ensure you are a success!

Remember: “Use your skills to pay your bills.” - this is and must be your first step!

Now let’s find your new home based business!

Here is a list of common skill sets or industries with ideas for turning your skills into your own money making business! View more in the 500+ Work at Home Ideas section (page 10).

Accounting

- Bookkeeper (virtual)
- Quick books training (in person or virtual)
